

Aditi Rao

B.Tech student in Computer Science (AI & ML) with hands-on experience building and deploying machine learning models. Interested in data science and NLP roles.

Technical Skills

Python, Machine Learning, Deep Learning, SQL, Scikit-learn, Pandas, NumPy, Flask, Streamlit, Git

Experience

Data Science Intern, BrightWave Analytics (Remote) - Jun 2025 to Aug 2025

Cleaned and analyzed customer datasets using Pandas; built dashboards in Power BI to visualize sales trends for the marketing team.

Projects

Twitter Emotion Classifier

Built a text classification model using Logistic Regression and TF-IDF to detect emotions in tweets; deployed with Flask.

Crop Yield Prediction

Built a regression model to predict crop yield from soil and climate data; deployed using Streamlit.

Education

B.Tech Computer Science (AI & ML), CMR University, Bangalore, 2023-2027
